

WILSON MAY GIVE CARRANZA AMMUNITION TO HELP HIM OUST HUERTA FROM HIS JOB

Cabinet Is in Full Accord With the President, It Is Declared.

(Continued from page 1.)

ranza force, hoping that Carranza will be able to oust Huerta.

Cabinet Supports Wilson.

President Wilson's cabinet stands firmly behind him in his efforts to force the retirement of provisional president Huerta as a necessary step to the pacification of Mexico. For more than two hours the cabinet discussed every phase of the Mexican situation. The consensus of opinion was that the United States should not take a single backward step in its program to restore constitutional government in Mexico.

It has become known that all the secretaries favor steps which would convince Huerta that the United States is in earnest in its demands. Some of the cabinet members recognized in the lifting of the embargo on arms a practical and perhaps early solution of the difficulty, but there was no final decision on the point.

There is a strong part of the president and secretary Bryan that a measure so radical as permitting exportations of arms may not be required to solve the problem.

Wilson May Issue Statement.

That president Wilson might possibly issue a statement explaining the purpose of the United States was indicated by some of the diplomats. The president, it is said, has not finally determined whether he shall make another pronouncement, but it has been suggested to him that such a declaration might place on record before the world the reasons why the elections of president vice president and members of congress in Mexico could not be recognized by the United States. It is reported that in this connection, too, the president may announce the repudiation in advance of any acts of the new congress which Gen. Huerta has said would be convened on November 20.

Cuba Will Not Aid Rebels.

Senor De la Vega, Cuban charge here, has issued a statement denying for his government any report from Nogales, Sonora, that two Cuban warships had been offered to the Mexican "Constitutionalists" at a conference between Gen. Carranza and a Cuban commission headed by Fuenfuegos. Senor Nogales, the statement said, went to Sonora on an exclusively commercial trip.

Warships Remained at Tampam.

Rear Admiral Bouchon, on the battleship Louisiana, at Tampam, reported to the navy department today that there was no immediate need of protection to American property in that vicinity. He assured consuls that the Louisiana will afford asylum for Americans and other foreigners. For the present the Louisiana will remain at Tampam.

REV. McMILLAN SAYS EIGHT WAYS TO SAVE

"There are at least eight things mentioned in the new testament as saving us," said Rev. Hugh McMillan in his sermon at the First Christian church revival service Tuesday night. "The first of these is grace, which simply means the favor of God; the second is faith, which is the power in us by which we lay hold of the divine; the third is repentance, which is the turning away from sin; the fourth is the knowledge of Jesus, which means 'quitting one's meanness'; the fifth is confession, confession, obedience and calling upon the name of the Lord. The sixth is the study of the scriptures, and in every respect interesting and pleasing.

The services will be held tonight as usual beginning at 7:45.

RACE HORSE SPECIAL IS DUE HERE FRIDAY

The "race horse special" a train composed of 18 cars of race horses and two Pullmans filled with racing men, is due to arrive here Friday afternoon from Latonia, Ky. The special left Latonia yesterday. The Juarez track is the destination of the horses and horsemen aboard it.

More than 300 horses are already quartered at the Juarez track. Rumors of war and rebellion along the border do not seem to have frightened away any followers of the game. The Juarez racing season opens on Thanksgiving day.

FACES TRIAL HERE ON MURDER CHARGE

Blas Aguirre, charged with the murder of Vidal Barrella at Fort Hancock on the night of November 9, faces trial here. He was brought to the city Tuesday by H. S. Ross, justice of the peace at Fort Hancock, and turned over to the county authorities.

The shooting is said to have resulted from a quarrel between Aguirre and Barrella. The latter, wounded through the groin, died soon after.

Justice Ross left for Fort Hancock Tuesday night.

CALIFORNIA WILL NOT REDUCE CRITIC OF WILSON'S POLICY

Sacramento, Cal., Nov. 12.—The efforts of the San Francisco Democratic club to have Dr. David H. Barrows, acting president of the University of California, rebuked by Governor Johnson because of speeches Dr. Barrows delivered denouncing the Mexican policy of president Wilson failed when Governor Johnson wrote the club that he would not deny any university professor the right of freedom of speech on topics interesting to the public.

EXPLODE DYNAMITE MINES TO PLACATE MEXICAN CHARGES

Dynamite mines on the Mexican side of the Rio Grande near Peace Grove, opposite the Union station, were exploded Tuesday afternoon by Federal troops of the Juarez garrison and fresh charges were planted.

These mines were prepared last spring when Villa's rebels were reported about to attack Juarez. No significance is attached to the occurrence, according to the Juarez officials.

LABOR SECRETARY SCORES MINE OWNERS

William B. Wilson Ascribes He Will Make Public Profits of Operators in Michigan.

Seattle, Wash., Nov. 12.—Secretary of labor William B. Wilson, addressing the American Federation of Labor, bitterly condemned the attitude of the Michigan copper mining companies, who warned them that a new conception of titles to property was in progress of formation. He declared he would make public not only the wages paid to the miners, the hours they worked and the labor conditions, but the enormous profits of the mine owners.

Committees Work on Report.

The various committees of the American Federation of Labor struggled with their reports on portions of the executive council report referred to them and the resolutions offered from the floor. Three subjects that were troublesome at the Rochester convention last year are still in contention, namely the charges filed by the Central Federated union of Greater New York and vicinity against the White Rats Actors' union of America, the quarrel between the two factions of the International Electrical Workers of America and legislation demanded by the postal clerks.

The minority branch of the workers is recognized by the Federation and counts, but the Reid-Murphy faction is powerful in the west and has 3000 members on the Pacific coast.

BAGPIPER ENTHUSES MOONLIGHT AUDIENCE

J. Heron, a Tall Scot, Plays Highland Martial Air and Explains Technicalities of the Pipes.

El Pasoans living in the neighborhood of Nevada and El Paso streets started Tuesday night by the wild, stirring strains of a Scottish pibroch that suddenly broke loose in the after supper quiet of the moonlight evening.

Playing as though he was leading a clan of fiery highlanders in the hills to his native Scotland, a tall Scot with his bagpipes passed down Nevada street. In his wake there was a banging of doors and opening of windows. The sound of a pibroch is something unusual in El Paso. The sleepy street suddenly became very much alive with the sound of the moonlight evening.

As he passed down Ange the piper, all unconscious of the sensation he was creating, almost disrupted the football practice of the Catholic Athletic association team, who were tearing up the gridiron in their nightly football scrimmage.

The bagpiper might have been the understudy of the piper of Hamelin, Judging from the crowd of irrepressible youths who poured out of houses and windows to stare at the native and taken by the crowd near Houston square and besought to play.

"This piper is a new guide for the pipes," said J. Heron, the piper, as he readjusted his beloved bagpipes with his left hand, and then turned over his shoulder. "It's too dry, the reeds dinna wurk well," he said. The reeds dry, he explained, "this is Glasgow and I have to send for new reeds, as they dinna keep them here." Having settled the pipes to his satisfaction he began the stirrer, almost barbedle wild strains of the "Cock of the North"—that melody that turned the tide of battle.

Gen. Herring was born in Savannah, Tenn., April 6, 1858. His parents, Judge and Mrs. D. W. Herring, at present reside at Jackson, Tenn. He attended the University of Tennessee at Knoxville. Words of Praise

For Mayr's Wonderful Stomach Remedy

"How thankful we are to you for getting a hold of your Wonderful Remedy. My wife could not have but a short time to live if she had not taken your Wonderful Remedy when she did. One more of those paroxysms pains she was having would have killed her without a doubt. Now she is free from all pain, free from heart trouble and free from that distressing Neuralgia—all the results of the treatment and the expulsion of five or six hundred Gallstones. Now she is able to eat anything she wants and her appetite is good and before taking your medicine she had no appetite and when she ate anything she would suffer death for so doing and could not sleep at night since taking your treatment she sleeps well all night long. T. A. Neill, Bangor, Texas."

The above letter should convince you more than anything we could say in behalf of Mayr's Wonderful Stomach Remedy. Sufferers should try one dose of this Remedy—one dose should convince them that they can be restored to health.
